

Jacob Dunbar

Frontend Developer & UI/UX Designer

London | [linkedin.com/in/jacob--dunbar](https://www.linkedin.com/in/jacob--dunbar) | jacobdunbar@googlemail.com | jacobdunbar.com

◆ PROFESSIONAL SUMMARY

Frontend Developer & UI/UX Designer with 3+ years' experience designing and building complex, interactive products using TypeScript, JavaScript and Vue, alongside 4+ years of personal React experience. Strong focus on visual and interaction design, with experience taking complex product requirements from Figma and prototypes through to polished production interfaces. Experienced in design systems, responsive UI and AI-assisted design and development workflows.

◆ KEY SKILLS

UI/UX Design · Interaction Design · React · TypeScript · JavaScript · Vue · Figma · Design Systems · Component Architecture · Prototyping · Responsive Design · HTML5 · CSS3 · Vitest · Jest · Git · GitHub Copilot · AI-Assisted Development · WebSockets · API Integration

◆ EXPERIENCE

Frontend Developer & UI/UX Designer - AnyTask

Feb 2023 – May 2026 · Vue 3 · TypeScript · Pinia · Tailwind · PrimeVue · AppSync · Figma

- Designed and developed production interfaces for a platform used by **15,000+ users across 140+ countries**.
- Designed and built complex interactive experiences including data-rich dashboards, dynamic search, real-time messaging and file interactions.
- Implemented real-time communication using **AWS AppSync WebSockets**, including threads, read states and file uploads.
- Led the migration from **Vue 2 to Vue 3, Vuex to Pinia, Bootstrap to Tailwind and PrimeVue, and Jest to Vitest**, modernising the frontend architecture and consolidating reusable components.
- Worked from Figma concepts through to responsive production implementation, refining interaction, visual design and usability throughout the process.
- Worked with the team to establish **AI-assisted design and development workflows**, exploring tools including Copilot, Claude and ChatGPT to improve ideation, prototyping and implementation.

◆ PROJECTS

Squeeze - Gamified Fitness App

Frontend Developer & UX/UI Designer · React Native · TypeScript · Expo

- Self-directed mobile product exploring how interaction design and game mechanics can make fitness more engaging.
- Designed and built reusable components for workout logging, recovery tracking, progression, XP, rewards and animated feedback.
- Developed the product end-to-end from interaction and visual design through to React Native implementation, using AI-assisted development to rapidly explore and refine ideas.

Milly Tillson Portfolio Site

Next.js · Contentful · Styled Components

- Designed and developed a responsive portfolio site for a fashion photographer, translating a visual direction into a polished production website.
- Built with Next.js and Contentful CMS, allowing the client to manage portfolio content independently without code.

◆ EDUCATION

Professional Diploma - UX Design · UX Design Institute

BA Illustration with Animation · University of the West of England
